## **WORK EXPERIENCE**

# **Senior Frontend Developer**

#### TechSolutions Inc., San Francisco, CA

June 2021 - Present

- Led the frontend development of an e-commerce platform using React.js and Next.js, increasing conversion rates by 23%
- Implemented responsive design strategies resulting in a 45% improvement in mobile user engagement
- Optimized website performance by reducing load time by 2.5 seconds through code splitting and lazy loading
- Collaborated with UX designers to implement user-centered design solutions
- Mentored 3 junior developers and conducted code reviews to maintain code quality

#### **Frontend Developer**

**Digital Innovations, Austin, TX** 

August 2018 - May 2021

Developed and maintained multiple React-based web applications for clients in

finance and healthcare

• Built reusable component libraries that reduced development time by 30%

Integrated REST APIs and GraphQL endpoints to create dynamic user interfaces

Implemented automated testing using Jest and Cypress, achieving 85% code

coverage

• Participated in agile development cycles, sprint planning, and retrospectives

**Junior Web Developer** 

WebCraft Designs, Boston, MA

January 2017 - July 2018

Created responsive websites using HTML5, CSS3, and JavaScript

Converted design mockups into functional web pages

Assisted in troubleshooting cross-browser compatibility issues

Implemented basic SEO practices to improve site visibility

**EDUCATION** 

**Bachelor of Science in Computer Science** 

**Boston University, Boston, MA** 

Graduated: December 2016

GPA: 3.8/4.0

### **PROJECTS**

### E-commerce Platform (React.js, Node.js)

- Developed a full-stack e-commerce application with React frontend and Node.js backend
- Implemented user authentication, product catalog, and shopping cart functionality
- github.com/johnsmith/ecommerce-platform

### Weather Dashboard (React.js, OpenWeather API)

- Created a weather application that displays current and forecasted weather data
- Utilized geolocation and third-party API integration
- github.com/johnsmith/weather-dashboard

## Personal Portfolio Website (Next.js, Tailwind CSS)

- Designed and developed a personal portfolio showcasing projects and skills
- Implemented animations and responsive layouts using modern CSS techniques
- johnsmith.dev

### **CERTIFICATIONS**
